help us
help you
during
an
emergency

WHAT IS AN EMERGENCY?

A community-wide emergency is any event that presents an immediate threat to you, your neighbors, and your surroundings.

This could involve a natural or industrial hazard, or a national security concern. The public safety officials in your community, in partnership with local industry and federal agencies, are prepared to assist you should a community-wide emergency occur.

Call 911 only if you have a life-threatening emergency

HOW YOU WILL BE NOTIFIED IN AN EMERGENCY

If you are in an affected area, you will be notified by telephone through a community alert system. If a telephone alert is received, tune to KCBS Radio (740-AM) or your local television station for instructions. You may be instructed to Shelter–Shut–Listen, or to evacuate your area.

Most importantly, remain calm.

1. shelter

In some emergencies you may be instructed to shelter-in-place. If so, remain calm and seek immediate shelter in your home, nearby building or automobile. When necessary, obtain shelter for pets or livestock.

2. shut

Once inside, close all doors and windows. Turn off or close all ventilation systems. Extinguish any pilot lights, and locate emergency supplies.

3. listen

Tune to KCBS Radio (740-AM) or your local television station for instructions.

IF EVACUATION IS NECESSARY

Listen carefully to KCBS Radio (740-AM) or your local television station to be certain you are in an evacuation area.

IMPORTANT STEPS FOR EVACUATION

- ✓ Leave your area within the instructed time
- ✓ Keep telephone lines free for emergency use only
- ✓ Turn off all stoves and space heaters
- ✓ Leave pets and livestock sheltered with food and water
- ✓ Take vital documents and emergency supplies (including prescription medications) with you
- ✓ Safely drive the route provided to you by public safety officials
- ✓ Keep automobile windows and vents closed until you reach your destination
- ✓ If you need transportation assistance contact a neighbor or call 911
