Notice

To: Office of Secure Transportation Federal Agents and Training Officers

From: OST Emergency Operations Division

The implementation of the new Protective Action Recommendation Cards requires that the current Web Base Training (WBT) for protective action recommendations be postponed until such training is updated.

The formal hands-on training for the new Protective Action Recommendation Cards will substitute for the annual WBT requirement for 2003.

The WBT training for protective actions recommendations will resume in 2004.

Sincerely,

David K Franks
OST Emergency Program Specialist
