

Example: Master Exercise Objectives List

DOE Headquarters EOC

Obj. Id.	Objective Statement
DOE-HQ. 1	Given a request for NNSA's National Assets, the DOE HQ Watch Office and/or Emergency Operations Center processes the request in accordance with the Headquarters Emergency Management Team Plan, January 20XX.
DOE-HQ. 2	Given an Operational Emergency HQ Emergency Operations Center, establish and maintain communications with the affected organization, the State, and other Federal Agencies in accordance with the Headquarters Emergency Management Team Plan, January 20XX.
DOE-HQ. 3	Given an Operational Emergency HQ Emergency Operations Center, process and analyze event information and provide HQ guidance to the affected organization in accordance with the Headquarters Emergency Management Team Plan, January 20XX.
DOE-HQ. 4	Given the decision to activate the Headquarters Emergency Operation Center, provide accurate and timely information to public in accordance with the Headquarters Public Affairs Plan and the Headquarters Emergency Management Team Plan, January 20XX.
DOE-HQ. 5	Demonstrate the ability to conduct a Headquarters emergency exercise in accordance with DOE Order 151.1X.

DOE Watch Office

Obj. Id.	Objective Statement
DOE-WO. 1	Given an event has been classified as an Operational Emergency, Headquarters Watch Office provides prompt and accurate initial emergency notification and follow-up notification in accordance with the Headquarters Emergency Management Team Plan, January 20XX and Notification and Activation Phase Implementing Procedure, March 20XX.
DOE-WO. 2	Given an Operational Emergency and direction to activate the Headquarters Emergency Response Plan, activate and staff the HQ Emergency Operation Center in accordance with the Headquarters Emergency Management Team Plan, January 20XX and Notification and Activation Phase Implementing Procedure, March 20XX.
DOE-WO. 3	Given a request for NNSA's National Assets, the DOE HQ Watch Office and/or Emergency Operations Center processes the request in accordance with the Headquarters Emergency Management Team Plan, January 20XX.

Einsteinville Emergency Medical Service

Obj. Id.	Objective Statement
Einst-EMS .1	Given a dispatch to the event scene, the Einsteinville EMS assets safely respond to the staging area in accordance with the mutual aid agreement and Einsteinville Ambulance Services protocols.
Einst-EMS .2	Given victims and direction from the IC, conduct Patient assessment and provide emergency medical treatment in accordance with the mutual aid agreement and Einsteinville Ambulance Services protocols.
Einst-EMS .3	Given mass casualties and direction from the IC, support the triage operations in accordance with the mutual aid agreement and Einsteinville Ambulance Services protocols.
Einst-EMS .4	Given the tasking to transport contaminated Patients, Einsteinville EMS packages or coordinates gross decontamination in accordance with the mutual aid agreement and Einsteinville Ambulance Services protocols.
Einst-EMS .5	Given the transport of injured or injured/contaminated persons, communicate Patient information to receiving medical facility in accordance with the mutual aid agreement and Einsteinville Ambulance Services protocols.
Einst-EMS .6	Given arrival at the designated hospital/medical center, Einsteinville EMS transfers Patient(s) to the receiving hospital/medical center in accordance with the mutual aid agreement and Einsteinville Ambulance Services protocols.

Einsteinville Emergency Operations Center

Obj. Id.	Objective Statement
Einst-EOC .1	Given notification of an emergency, activate and staff the EOC in accordance with the Einsteinville Emergency Plan and Einsteinville EOC Manual.
Einst-EOC .2	Given an operational EOC, maintain communications with the State EOC in accordance with the Einsteinville Emergency Plan and Einsteinville EOC Manual.
Einst-EOC .3	Given an operational EOC, implement protective actions in coordination with the State EOC based on event information and recommendations from the State EOC in accordance with the Einsteinville Emergency Plan and Einsteinville EOC Manual.

Einst-EOC .4	Given an operational EOC, share event information with the JIC and coordinate the release of public information with the JIC in accordance with the Einsteinville Emergency Plan and Einsteinville EOC Manual.
-----------------	--

Einst-EOC .5	Given a request for assistance, provide emergency response resources to the requesting organization in accordance with the Einsteinville Emergency Plan and Einsteinville EOC Manual.
-----------------	---

Einsteinville Fire Department

Obj. Id.	Objective Statement
Einst-IC.1	Given an emergency event and dispatched local response organizations, establish incident/unified command in accordance with the Einsteinville Procedures and the National Incident Management System.
Einst-IC.2	Given the establishment of Incident/Unified Command, establish and operate an Incident Command Post in accordance with the Einsteinville Procedures and the National Incident Management System.
Einst-IC.3	Given the establishment of Incident/Unified Command, establish and operate an Incident Command staging area in accordance with the Einsteinville Procedures and the National Incident Management System.
Einst-IC.4	Given the establishment of Incident/Unified Command, develop and implement an Incident Action Plan in accordance with the Einsteinville Procedures and the National Incident Management System.
Einst-IC.5	Given the arrival of senior Local, State, or Federal Agencies, transfer command and control in accordance with the Einsteinville Procedures and the National Incident Management System.

Einsteinville Hospital/Medical Facility

Obj. Id.	Objective Statement
Einst-ME D.1	Given event notification, the Hospital Operators record event information and provide notification to Einsteinville Hospital/Medical Facility management in accordance with the Einsteinville Hospital/Medical Facility Emergency Plan.
Einst-ME D.2	Given event information, activate Einsteinville Hospital/Medical Facility resources in preparation for receipt of Patients in accordance with the Einsteinville Hospital/Medical Facility Emergency Plan.

Einst-ME D.3	Given notification of a contaminated-casualty event, the Einsteinville Hospital/Medical Facility Emergency Room staff prepares for the arrival of potentially contaminated, critically injured Patients in accordance with the Einsteinville Hospital/Medical Facility Emergency Plan.
Einst-ME D.4	Given notification of a contaminated-casualty event, implements traffic control and security measures in accordance with the Einsteinville Hospital/Medical Facility Emergency Plan.
Einst-ME D.5	Given potential radiologically contaminated victims, Einsteinville Hospital/Medical Facility staff determines the level of contamination of arriving Patients in accordance with the Einsteinville Hospital/Medical Facility Emergency Plan.
Einst-ME D.6	Given contaminated Patients, conduct medical triage of contaminated Patients in accordance with the Einsteinville Hospital/Medical Facility Emergency Plan.
Einst-ME D.7	Given radiologically contaminated Patients, Einsteinville Hospital/Medical Facility staff maintains contamination control measures during and after treatment of individuals in accordance with the Einsteinville Hospital/Medical Facility Emergency Plan.
Einst-ME D.8	Given contaminated Patients, Einsteinville Hospital/Medical Facility staff activates and operates the Einsteinville Hospital/Medical Facility decontamination facility in accordance with the Einsteinville Hospital/Medical Facility Emergency Plan.

Einsteinville Law Enforcement Agency

Obj. Id.	Objective Statement
Einst-LAW .1	Given a release of hazardous materials in or threatening Einsteinville, establish roadblocks or redirect traffic in accordance with the Einsteinville Procedures and/or the State Emergency Plan.

ERC Duty Officer

Obj. Id.	Objective Statement
DO.1	Given an event, collect event information in accordance with the Energy Research Center Emergency Plan (May 20XX).
DO.2	Given an emergency response, provide safe route information to Responders (Players) in accordance with the Energy Research Center Emergency Plan (May 20XX).

DO.3	Given an event, categorize and classify the event in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 401 Emergency Action Levels (May 20XX).
DO.4	Given categorization and classification, make regulatory notifications in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 105 Offsite Notifications (May 20XX).
DO.5	Given an Operational Emergency, activate the Emergency Response Organization in accordance with the Energy Research Center Emergency Plan (May 20XX).
DO.6	Given injured persons, activate the medical resources in accordance with the Energy Research Center Emergency Plan (May 20XX).
DO.7	Given an activated IC, activate the RADCON, Criticality Safety, and/or IH support in accordance with the Energy Research Center Emergency Plan (May 20XX).
DO.8	Given initial event information, use the Emergency Action Levels (EALs) to determine and implement protective actions in accordance with Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 104 Protective Action Decision Making (May 20XX).
DO.9	Given the announcement of protective actions on the site, conduct accountability in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 104 Protective Action Decision Making (May 20XX).
DO.10	Given initial event information, use the EALs to determine protective action recommendations and provide them to Tribal, State, and Local governments in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 104 Protective Action Decision Making (May 20XX).
DO.11	Given a General Emergency, activate the Public Warning System in accordance with the Energy Research Center Emergency Plan (May 20XX).
DO.12	Given an Operational Emergency, manage the onsite response until Emergency Director (ED) duties are transferred to the TSC in accordance with the Energy Research Center Emergency Plan (May 20XX).

DO.13 Given an operational TSC/EOC, conduct formal turnover of ED duties in accordance with the Energy Research Center Emergency Plan (May 20XX).

ERC Emergency Operations Center

Obj. Id.	Objective Statement
TSC-EOC .1	Given an Operational Emergency, staff and activate the EOC in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 500 EOC Operations (April 20XX).
TSC-EOC .2	Given adequate staff to make the EOC operational, conduct a formal briefing and turnover of ED duties in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 500 EOC Operations (April 20XX).
TSC-EOC .3	Given escalating event or changing meteorological conditions, reclassify the event in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 500 EOC Operations (April 20XX).
TSC-EOC .4	Given event information, adjust protective actions and protective action recommendations in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 104 Protective Action Decision Making (May 20XX).
TSC-EOC .5	Given an Operational Emergency, maintain and process event information reflecting site conditions, personnel safety, hazard conditions, mitigation, significant events, action items, and other event information in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 500 EOC Operations (April 20XX).
TSC-EOC .6	Given an operational EOC, provide event information to the JIC, State EOC, Tribal Government, and DOE-HQ OC in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 500 EOC Operations (April 20XX).
TSC-EOC .7	Given an Operational Emergency, identify material at risk and source term in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 500 EOC Operations (April 20XX).

TSC-EOC
.8 Given an operational EOC, develop plume model projections on hazardous releases in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 500 EOC Operations (April 20XX).

TSC-EOC
.9 Given an Operational Emergency, assess the impact of the release on personnel, site operations, and the environment in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 500 EOC Operations (April 20XX).

TSC-EOC
.10 Given an Operational Emergency, identify and implement necessary and sufficient mitigation strategies in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 500 EOC Operations (April 20XX).

TSC-EOC
.11 Given the potential or actual onsite release of hazardous materials, develop an onsite-sampling plan in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 500 EOC Operations (April 20XX).

TSC-EOC
.12 Given an operational EOC, process press releases in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 500 EOC Operations (April 20XX).

TSC-EOC
.13 Given an actual or potential offsite release of hazardous materials, coordinate with the State on the development of an offsite field-monitoring plan in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 500 EOC Operations (April 20XX).

TSC-EOC
.14 Given deployed offsite FMTs, coordinate the collection of sampling information and provide to the EOC staff in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 500 EOC Operations (April 20XX).

TSC-EOC
.15 Given an Operational Emergency, develop a Recovery Plan in coordination with the State, Tribal and DOE-HQ in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 500 EOC Operations (April 20XX).

ERC EOC - FMT Dispatch

Obj. Id.	Objective Statement
FMT-CC.1	Upon activation, assigned staff report to the ERC EOC - FMT Dispatch in accordance with [Insert Site/Facility Plan and/or Procedure].
FMT-CC.2	When the ERC EOC - FMT Dispatch is operational, establish and maintain communications with the TSC and/or ERC Duty Officer in accordance with [Insert Site/Facility Plan and/or Procedure].
FMT-CC.3	When the ERC EOC - FMT Dispatch is operational, activate the Onsite Field Monitoring Team(s) in accordance with [Insert Site/Facility Plan and/or Procedure].
FMT-CC.4	When the ERC EOC - FMT Dispatch is operational, activate available RADCON, Industrial Hygiene, and Environmental technical staff in accordance with [Insert Site/Facility Plan and/or Procedure].
FMT-CC.5	When the ERC EOC - FMT Dispatch is operational, prioritize and implement requests for support from the TSC/EOC and/or ERC Duty Officer in accordance with [Insert Site/Facility Plan and/or Procedure].
FMT-CC.6	Given an operational ERC EOC - FMT Dispatch manages, tracks, and reports task completion of technical resources under ERC EOC - FMT Dispatch control in accordance with [Insert Site/Facility Plan and/or Procedure].
FMT-CC.7	When the Field Monitoring Plan is developed, the FMT Dispatch briefs, dispatches, and collects data from the FMTs in accordance with [Insert Site/Facility Plan and/or Procedure].

ERC Fire Department

Obj. Id.	Objective Statement
IC.1	Given a 911 call or emergency alarm, safely respond to event scene in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).
IC.2	Upon arrival at the event scene, establish and maintain communications in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).

IC.3	Upon arrival at the event scene, assess the event situation in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).
IC.4	Given an established Incident Command System, assess the response element capability and request assistance in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).
IC.5	Upon arrival at the event scene, establish a Command Post in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).
IC.6	Upon arrival at the event scene, a Safety Officer manages Responder (Player) safety throughout the response in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).
IC.7	Upon implementation of the Incident Command System, establish Command Post (CP) Safety Monitoring in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).
IC.8	Upon implementation of the Incident Command System, establish and operate a staging area in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).
IC.9	Upon implementation of the Incident Command System, establish response sectors in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).
IC.10	Upon activation, RADCON, Industrial Hygiene, Criticality Safety, and Environmental Specialists will provide support to the Incident Commander in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).

IC.11	Upon implementation of the Incident Command System, develop and implement an incident action plan in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).
IC.13	Given the mitigation of the event, conduct the post-event critique in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).
IC.14	Given the mitigation of the event, survey then return response assets to service in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).
IC.15	Given the mitigation of the event, support Reentry and Recovery Operations in accordance with the Energy Research Center Emergency Plan (May 20XX).
FD.1	Given a 911 call or emergency alarm, safely respond to event scene in accordance with the Energy Research Center Emergency Plan (May 20XX).
FD.2	Given an established Incident Command System, provide on scene command for HAZMAT, emergency medical and rescue assets in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).
FD.3	Given direction from the Incident Commander, conduct fire fighting operations in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).
FD.4	Given direction from the Incident Commander, conduct search and rescue operations in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).
FD.5	Given the arrival of response assets at the staging area from offsite locations, integrate these assets into the emergency response in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).

FD.6	Given identification of the hot, warm, and cold zones, establish decontamination line and conduct decontamination operations in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 102 Incident Command and Control (May 20XX).
FD.7	Given water runoff from fire fighting operations, conduct mitigative operations in accordance with ERC Spill Response Plan.

ERC Fire Department - HAZMAT

Obj. Id.	Objective Statement
HAZMAT.1	Given identification of the hot, warm, and cold zones, establish decontamination line and conduct decontamination operations in accordance with the Energy Research Center Emergency Plan (May 20XX).

ERC FMTs

Obj. Id.	Objective Statement
FMT.1	Given activation of the onsite Field Monitoring Teams, ERC FMTs respond to the designated location and obtain required equipment in accordance with [Insert Site/Facility Plan and/or Procedure].
FMT.2	When sufficient Field Monitoring Team members are present and equipment is operationally checked, declare the onsite Field Monitoring Teams operational in accordance with [Insert Site/Facility Plan and/or Procedure].
FMT.3	Given an operational onsite Field Monitoring Teams and sampling plan, brief the teams on safety measures then deploy the onsite Field Monitoring Teams in accordance with [Insert Site/Facility Plan and/or Procedure].
FMT.4	Given deployed onsite Field Monitoring Teams, ERC FMTs conduct measurement operations and report the measurements to the ERC EOC - FMT Dispatch in accordance with [Insert Site/Facility Plan and/or Procedure].

ERC Medical Clinic

Obj. Id.	Objective Statement
MED.1	Given notification of an event with injuries, prepare the ERC Medical Clinic to receive Patients in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 801 Medical Clinic Operations (January 20XX).

MED.2	Given arrival of injured, prioritize and treat Patients or transport Patients critical to offsite medical facilities in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 801 Medical Clinic Operations (January 20XX).
MED.3	Given that all injured are treated or transported, deactivate the ERC Medical Clinic from emergency conditions in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 801 Medical Clinic Operations (January 20XX).

ERC Medical Clinic - EMS

Obj. Id.	Objective Statement
EMS.1	Given a 911 call or alarm, the ambulance safely responds to the scene in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 802 Emergency Medical Services (May 20XX).
EMS.2	Given an Operational Emergency, ensure that protective clothing and equipment are utilized by all EMS Responders (Players) in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 802 Emergency Medical Services (May 20XX).
EMS.3	Given multiple injuries, establish and operate a triage area in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 802 Emergency Medical Services (May 20XX).
EMS.4	Given injured persons, provide emergency medical treatment and transport in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 802 Emergency Medical Services (May 20XX).
EMS.5	Given contaminated and injured persons, conduct assessment and coordinate transport, based on Patient condition, to medical facilities the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 802 Emergency Medical Services (May 20XX).
EMS.6	Given the transport of injured and/or contaminated persons, communicate Patient information to receiving medical facility in accordance with the Energy Research Center Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 802 Emergency Medical Services (May 20XX).

ERC Medical Facility - Decon

Obj. Id.	Objective Statement
DECON.1	Given notification of contaminated injured, implement the ERC Medical Clinic contamination control protocols in accordance with the Energy Research Emergency Plan (May 20XX) and Emergency Plan Implementing Procedure 802 Medical Clinic Decontamination Operations (January 20XX).

ERC Protective Force

Obj. Id.	Objective Statement
SEC.1	Given a 911 call or emergency alarm, the Security Command Center will dispatch security assets in accordance with the Energy Research Center Emergency Plan (May 20XX) and Protective Force Protocols and Standing Orders.
SEC.2	Given either a 911 call, emergency alarm, or security alarm, security assets will safely respond to event scene in accordance with the Energy Research Center Emergency Plan (May 20XX) and Protective Force Protocols and Standing Orders.
SEC.3	Given an event, the Security Command Center will determine and implement access and egress control in accordance with the Energy Research Center Emergency Plan (May 20XX) and Protective Force Protocols and Standing Orders.
SEC.4	Given deployed security units, support the IC in the initial event assessment in accordance with the Energy Research Center Emergency Plan (May 20XX) and Protective Force Protocols and Standing Orders.
SEC.5	Given an established Incident Command System, provide on scene command for the security sector in accordance with the Energy Research Center Emergency Plan (May 20XX) and Protective Force Protocols and Standing Orders.
SEC.6	Given deployed security units, cordon the event scene in accordance with the Energy Research Center Emergency Plan (May 20XX) and Protective Force Protocols and Standing Orders.
SEC.7	Given an event, develop security response plan in accordance with [Insert Site/Facility Plan and/or Procedure].
SEC.8	Given an approved security response plan, implement security response plan in accordance with [Insert Site/Facility Plan and/or Procedure].

SEC.9	Given a hostage situation, activate the hostage negotiation team in accordance with [Insert Site/Facility Plan and/or Procedure].
SEC.10	Given a hostage situation, conduct hostage negotiations in accordance with [Insert Site/Facility Plan and/or Procedure].
SEC.11	Given the request for mutual aid, expedite the access and egress of emergency response assets in accordance with the Energy Research Center Emergency Plan (May 20XX) and Protective Force Protocols and Standing Orders.
SEC.12	Given a security event, activate the Sniper Team in accordance with [Insert Site/Facility Plan and/or Procedure].
SEC.13	Given a security event, conduct sniper operations in accordance with [Insert Site/Facility Plan and/or Procedure].
SEC.14	Given a security event and arrival of the FBI, transfer command of security forces in accordance with [Insert Site/Facility Plan and/or Procedure].
SEC.15	Given a security event and transfer of command to the FBI, support the FBI operations in accordance with [Insert Site/Facility Plan and/or Procedure].
IC.1	Given a 911 call or emergency alarm, safely respond to event scene in accordance with [Insert Site/Facility Plan and/or Procedure].
IC.2	Upon arrival at the event scene, establish and maintain communications in accordance with [Insert Site/Facility Plan and/or Procedure].
IC.3	Upon arrival at the event scene, assess the event situation in accordance with [Insert Site/Facility Plan and/or Procedure].
IC.4	Given an established Incident Command System, assess the response element capability and request assistance in accordance with [Insert Site/Facility Plan and/or Procedure].
IC.5	Upon arrival at the event scene, establish a Command Post in accordance with [Insert Site/Facility Plan and/or Procedure].
IC.6	Upon arrival at the event scene, a Safety Officer manages Responder (Player) safety throughout the response in accordance with [Insert Site/Facility Plan and/or Procedure].
IC.7	Upon implementation of the Incident Command System, establish Command Post Safety Monitoring in accordance with [Insert Site/Facility Plan and/or Procedure].

IC.8	Upon implementation of the Incident Command System, establish and operate a staging area in accordance with [Insert Site/Facility Plan and/or Procedure].
IC.9	Upon implementation of the Incident Command System, establish response sectors in accordance with [Insert Site/Facility Plan and/or Procedure].
IC.11	Upon implementation of the Incident Command System, develop and implement an incident action plan in accordance with [Insert Site/Facility Plan and/or Procedure].
IC.13	Given the mitigation of the event, conduct the post-event critique in accordance with [Insert Site/Facility Plan and/or Procedure].
IC.14	Given the mitigation of the event, survey then return response assets to service in accordance with [Insert Site/Facility Plan and/or Procedure].
IC.15	Given the mitigation of the event, support Reentry and Recovery Operations in accordance with [Insert Site/Facility Plan and/or Procedure].

Evacuation Points

Obj. Id.	Objective Statement
AS.1	Given a shelter-in-place protective action, building <insert building number> employees conduct building shelter in place operations in accordance with the Building X-100 Building Emergency Plan (December 20XX).
AS.2	Given a building evacuation, employees report to the assembly station and establish communications with the ERC Duty Officer or Incident Commander in accordance with Building X-100 Building Emergency Plan (December 20XX).
AS.3	Given assembled employees, conduct accountability and report the results to the ERC Duty Officer or Incident Commander in accordance with Building X-100 Building Emergency Plan (December 20XX).
AS.4	Given the possibility of contaminated employees at the assembly station, request RADCON and/or Industrial Hygiene support from the ERC Duty Officer or Incident Commander in accordance with Building X-100 Building Emergency Plan (December 20XX).

AS.5 Given contaminated employees and RADCON and/or Industrial Hygiene support, survey and segregate contaminated employees in accordance with Building X-100 Building Emergency Plan (December 20XX).

Exercise Control and Evaluation

Obj. Id.	Objective Statement
C/E.1	The Exercise Plan is developed in coordination and with input from all major Participating Organizations in accordance with EPIP 517 ERC Exercise Program.
C/E.2	The Exercise Plan is approved by all major Participating Organizations in accordance with EPIP 517 ERC Exercise Program.
C/E.3	Given an emergency management/preparedness drill/exercise, personnel assigned to the Controller and Evaluator Organization attends pre-drill/exercise training in accordance with EPIP 517 ERC Exercise Program.
C/E.4	Given an emergency management/preparedness drill/exercise, the Controller and Evaluator Organization is adequately staffed to control and evaluate the drill/exercise in accordance with EPIP 517 ERC Exercise Program.
C/E.5	Given an emergency management/preparedness drill/exercise, the drill/exercise start conditions are coordinated with Lead Controllers and/or Controller/Evaluators in accordance with EPIP 517 ERC Exercise Program.
C/E.6	Given an emergency management/preparedness drill/exercise, a control or simulation cell is established and operates to provide drill/exercise information and data from organizations being simulated in the drill/exercise in accordance with EPIP 517 ERC Exercise Program.
C/E.7	Given an emergency management/preparedness drill/exercise, the Controllers provide planned and/or earned information in accordance with the Drill/Exercise Plan.
C/E.8	Given an emergency management/preparedness drill/exercise, the Drill/Exercise Plan contains adequate and accurate drill/exercise data in accordance with EPIP 517 ERC Exercise Program.
C/E.9	Given an emergency management/preparedness drill/exercise, the Controllers prohibit interference by Nonparticipants, Evaluators, and Observers in accordance with EPIP 517 ERC Exercise Program.

C/E.10	Given an emergency management/preparedness drill/exercise, the Controllers implement the safety and security plans in accordance with EPIP 517 ERC Exercise Program.
C/E.11	Given an actual event during an emergency management/preparedness drill/exercise, the Evaluator and Controller Organization suspend and restart or terminate the drill/exercise in accordance with EPIP 517 ERC Exercise Program.
C/E.12	Given an emergency management/preparedness drill/exercise, the Controller and Evaluator Organization uses proper communications protocols in accordance with EPIP 517 ERC Exercise Program.
C/E.13	Given an emergency management/preparedness drill/exercise, role players accurately depict the proper simulation(s) in accordance with the Drill/Exercise Plan and EPIP 517 ERC Exercise Program.
C/E.14	Given the termination of the emergency management/preparedness drill/exercise, the Lead Controllers facilitate (when requested by the Lead Responder (Player)) the post-drill/exercise organizational critique/hotwash in accordance with EPIP 517 ERC Exercise Program.
C/E.15	Given an emergency management/preparedness drill/exercise, Evaluators and Controller/Evaluators position themselves to observe and document response in accordance with EPIP 517 ERC Exercise Program.
C/E.16	Given a completed drill/exercise, the Control Organization terminates the drill/exercise in accordance with EPIP 517 ERC Exercise Program.
C/E.17	Given the completion of the emergency management/preparedness drill/exercise, individual Evaluators and Controller/Evaluators complete their drill/exercise evaluation guides in accordance with EPIP 517 ERC Exercise Program.
C/E.18	Given completion of an emergency management/preparedness drill/exercise, the Evaluator and Controller Organization staff attends the post exercise Evaluator and Controller debrief in accordance with EPIP 517 ERC Exercise Program.
C/E.19	Given completion of an emergency management/preparedness drill/exercise, draft and technically review the After Action Report in accordance with EPIP 517 ERC Exercise Program.

C/E.20 Given completion of an emergency management/preparedness drill/exercise and a completed After Action Report, manage the approval of the AAR and submission of issues into the site's tracking system in accordance with EPIP 517 ERC Exercise Program.

Joint Information Center

Obj. Id.	Objective Statement
JIC.1	Given an Operational Emergency, staff and make operational the JIC in accordance with [Insert Site/Facility Plan and/or Procedure].
JIC.2	Given an operational JIC, coordinate the flow of information with all Participating Representative Agencies in accordance with [Insert Site/Facility Plan and/or Procedure].
JIC.3	Given an operational JIC, coordinate the release of information with all Participating Representative Agencies in accordance with [Insert Site/Facility Plan and/or Procedure].
JIC.4	Given an operational JIC, conduct press conferences with all Participating Representative Agencies in accordance with [Insert Site/Facility Plan and/or Procedure].
JIC.5	Given an operational JIC, conduct media monitoring operations in accordance with [Insert Site/Facility Plan and/or Procedure].
JIC.6	Given an operational JIC, conduct rumor control operations in accordance with [Insert Site/Facility Plan and/or Procedure].
JIC.7	Given an operational JIC, conduct public inquiry telephone bank operations in accordance with [Insert Site/Facility Plan and/or Procedure].

Lomas Flats Medical Center

Obj. Id.	Objective Statement
Lotus-ME D.1	Given event notification, the hospital Operators record event information and provide notification to Lomas Flats Medical Center management in accordance with the Lomas Flats Medical Center Emergency Plan.
Lotus-ME D.2	Given event information, activate Lomas Flats Medical Center resources in preparation for receipt of Patients in accordance with the Lomas Flats Medical Center Emergency Plan.

Lotus-ME D.3	Given notification of a contaminated-casualty event, the Lomas Flats Medical Center Emergency Room staff prepares for the arrival of potentially contaminated, critically injured Patients in accordance with the Lomas Flats Medical Center Emergency Plan.
Lotus-ME D.4	Given notification of a contaminated-casualty event, implements traffic control and security measures in accordance with the Lomas Flats Medical Center Emergency Plan.
Lotus-ME D.5	Given potential radiologically contaminated victims, Lomas Flats Medical Center staff determines the level of contamination of arriving Patients in accordance with the Lomas Flats Medical Center Emergency Plan.
