

Exercise Scope

Purpose: Meet DOE Order 151.1 requirements for annual site-level exercise and provide an opportunity for offsite organizations to practice response to a weapons of mass destruction incident.

Participation: Einsteinville Plant is having a full participation exercise that involves fire, security, Environmental Safety and Health, logistics, Incident Command, Technical Support Center, Emergency Operations Center, Shift Superintendents, and Plant population. The Joint Information Center will be simulated.

| Participant | Level of Participation |
|---------------------------------|---|
| Einsteinville Operations Office | Full participation |
| DOE HQ | Will participate with EOC activation |
| State | Limited participation, notification and partial activation of Emergency Management Agency |
| Local | Local hospitals will receive patients, all others will be notification only Local law enforcement will provide highway patrol for roadblocks and simulated offsite protective action implementations |
| Other Federal Agencies | Simulated, except regional Federal Bureau of Investigation Office for notifications only |
